Subject: [EXTERNAL] Byhalia connection

Hello- I'm submitting public comment in opposition to the proposed Byhalia Connection Pipeline in South Memphis. Industrial pipelines do not belong in neighborhoods. Actually pipelines don't belong anywhere, but that's another battle.

We have seen destruction caused by oil spills and leaks for years; some go on for YEARS. That is not what we want for our Memphis Community, especially one that already struggles with health issues and poor air quality due to its proximity to industrial sites. It's important to have the input of the community when making development decisions, so here is our input. Shut this down. Don't let Valero and Plains Pipeline put profit over the lives of people.
